

Lukas Domingos

Full Stack Developer

PROFILE

Full Stack Developer with 3 years of experience specializing in WordPress. I am a dedicated professional, hardworking, loyal, and willing to learn and teach, striving for excellence and good results. I've always given my best for all the companies I've been through, without measuring efforts. The leaders I worked with always praised my dedication, expertise, and commitment to carry out the tasks I was delegated to.

Along my journey, I was able to learn how important Resilience, Love for the process, Owner's Vision, and Focus on the Customer are.

My skills are: TypeScript, HTML5, CSS3, JavaScript framework works, WordPress, PHP framework works, React, and Node. But I already had contact with other languages like Python, Java, C#, and C++.
